**County Commissioners:**  
**Allen County Commissioners Office**  
**Address: 2nd Floor City County Building**  
**City: Fort Wayne**  
**Zip Code: 46802**

## Plan Summary

**Mission Statement:** The mission of the Drug and Alcohol Consortium of Allen County (DAC) is to provide an effective network to collaboratively prevent substance abuse, primarily by youth, and to reduce the negative impact of alcohol and other drugs in the Allen County community.

**History:** The Drug and Alcohol Consortium of Allen County (DAC) was established in 1990 and operates under the direction of an Executive Director and seven committees: Intervention, Justice, Higher Education Council, Finance, No Alcohol No Drugs (NAND) Secondary Education, Prevention, Research/LEOW, and a Board of Directors made up of the Chair of each committee, a President, Vice President, Past President, Secretary, Vice President of Finance/Treasurer and at least two but not more than ten At-Large Representatives. The Board now includes one voting and one non-voting member under the age of 19. During 2004, a re-organization of DAC to provide a more effective mode of operation began, including the revision of the bylaws and application for incorporation in State of Indiana, which was completed in December, 2004. Subsequently, DAC applied for and was granted 501(c)3 status on March 30, 2005.

The Consortium serves Allen County, population of 360,412 residents, as reported by the 2012 Allen County IN Depth Profile. The county population increased 59,576 between 1990 and 2012. Geographically, Allen County is the largest county east of the Mississippi River. Allen County is the third most populous county in the state as of 2012, representing 5.5% of Indiana's total population at that time, and is racially composed of (as of 2012) 81.7% Caucasian residents, 12.2% African American residents, 2.9% Asian residents, 0.1% Native American residents, and 6.8% Hispanic residents (with 2.6% in two or more race categories). The Hispanic population increased 434% from 1990 (5663) to 2012 (24,577). Fort Wayne and Allen County have served as a federally designated refugee center for the last 50 years. There has been an explosion in refugees placed here since 2007. While there is a wide range of nationalities represented, as of 2010, approximately 5,000 of our citizens represented the largest community in the world of Burmese outside of their native land. The 2012 Stats Indiana IN Depth Profile report for Allen County shows 10.7% of the county's families are headed by single parents.

DAC has a long history of strong social service partnerships with youth agencies and treatment providers. The Drug and Alcohol Consortium of Allen County currently has a membership of 134 active organizations represented by 353 active members (plus high school student, college student and Strengthening Families members = estimated additional 525 members), up 490% from 72 coalition members in 1999. In 2003, a partnership between DAC and Parkview Behavioral Health was formulated to bring a multi-media anti-drug/alcohol production to almost 10,000 Allen County students. The program included follow-up materials for the classroom teachers. That program continued in 2004 - 2010, reaching an average of 6,600 students per year. CAMFEL Productions was the media partner.

DAC has been involved in numerous community initiatives that focus largely on reducing crime and drug addiction through drug treatment, which includes a comprehensive case management plan for individuals. Allen County has run a Drug Court Program since 1998, receiving national recognition from the Department of Justice. Allen County is also known for its Operation Pull Over Program, run by Lt. Tony Maze of the Fort Wayne Police Department (FWPD), which has won numerous awards for high OWI arrest rates. Allen County also has one of the strongest Community Corrections Programs in the state and enjoys a strong relationship with the Department of Corrections and local governmental and judiciary entities. This program offers a one-stop site for educational, case management, drug treatment and mental health treatment programs for offenders. In the summer of 2001, Community Corrections, in a partnership with Allen Superior Court and the Department of Corrections (DOC), began the Community Re-Entry Program, a program that targets offenders for early release from prison upon compliance with a comprehensive case management, employment and educational program. Parolees from the County's Southeast (SE) Quadrant are served with this program, as over 65% of parolees return to the SE Quadrant of Fort Wayne. Allen County has also enjoyed the leadership of innovative judges, including Judge Charles Pratt of the Family Relations Division and Judges Surbeck, Gull and Davis of the Criminal Division. All have brought innovative ideas and services to Allen Superior Court, and the rehabilitation of chronic OWI offenders.

DAC has a history of collaborating to bring needed funding to our community through state and federal grants. DAC has been the recipient of multiple Drug Free Communities Support Grants, one of which concluded its five years in September, 2004, and one of which concluded its five years in September, 2010. We also completed a no-cost extension year which ended September 2011. DAC has also been the recipient of multiple grants from the Center for Substance Abuse Prevention targeted at the minority faith-based community to reduce substance abuse and HIV/AIDS. In 2007, DAC was awarded a four-year Strategic Prevention Framework State Incentive Grant focused on alcohol abuse reduction, especially 18 – 25 year old binge drinking, which concluded June, 2011. Supplemental to the DFC grant, DAC was awarded a four year federal Sober Truth on Preventing Underage Drinking Act grant, extending from 2009 to 2013 for \$200,000, providing a staff person to support outreach initiatives to reduce underage drinking. DAC was also instrumental in facilitating the roll out of the state's Access to Recovery program, which brings additional funds to substance abuse service providers in Allen County. Additionally, DAC is a Care Coordinator for the Access to Recovery program, collaborating with many other organizations in Allen County to get needed assistance to those in recovery. In 2013, DAC was awarded a \$110,000+ grant from the State of Indiana for a pilot Strengthening Families program. This program has been extended for another grant year through June 30, 2015 with the potential to continue for another 2 years beyond that. We are excited to bring this new opportunity for evidence-based prevention education to Allen County youth and families.

**Summary of the Comprehensive Community Plan:**

**Problem Statement #1: The use and abuse of alcohol, marijuana and prescription drugs by youth continues to be a problem.**

**Problem Statement #2: The use and abuse of alcohol, marijuana and prescription drugs by adults continues to be a problem in Allen County.**

Some of the highlights of the year 2013 were as follows: DAC has transitioned from holding two federal grants plus various additional grants to a grantee of a single state grant and is focused on continued sustainability and growth; DAC is encouraging Allen County schools to register this fall to conduct the spring 2015 IPRC Alcohol, Tobacco, and Other Drug Use by Indiana Children and Adolescents Surveys; DAC again hosted the Allen County and Northeast Region “Drug Quiz Bowl” for 4<sup>th</sup> to 7<sup>th</sup> graders; DAC facilitated and supported the training of 33 additional college peer educators through the BACCHUS training for a total of 222 students trained through 2013; In order to obtain input from the community on our continued mission and objectives, DAC conducted surveys and facilitated focus groups and planning sessions: MySurvey in 2013 measuring youth ages 15 – 20 on general alcohol use and drinking parties; planning session with the DAC Board on February 27, 2014, 4:00 - 5:00 PM; and 3 community leader focus groups on March 24, 2014 (8:00 – 10:00 AM, noon – 2:00 PM and 4:00 – 6:00 PM). DAC collected data from Allen County law enforcement and of the 13,369 total arrests in 2013, 46% (6,170 arrests) were alcohol or drug related. DAC also applied and was accepted to be part of a social hosting research project through Wake Forest School of Medicine in North Carolina. The object of the project is to create environmental change through a more enforceable civil ordinance for the city of Fort Wayne. This ordinance would create increasing civil consequences for adults who allow underage drinking on their property without the necessity of proving they “knew” about it. Finally, DAC has started a new program based on the evidence-based Strengthening Families curriculum. Many group leaders/trainers, babysitters, cooks and participating families are involved, but are not included in the below membership roster.

DAC has adopted the key tenants of the Strategic Prevention Framework of assessment, capacity identification and growth, planning, implementation, and evaluation. We continue to promote simplified implementation of the model in key pockets of the community. Additionally, DAC is adopting CADCA’s focus on the seven key steps for effective community change in setting our goals and objectives: provide information, enhance skills, provide support, enhance access/reduce barriers, change consequences, change physical design, and modify or change policies. Finally, DAC began working on educating the community and promoting a civil-penalty based social host ordinance as a deterrent for home parties where underage drinking occurs.

## Membership List

**County LCC Name: Allen**

#	Name	Organization	Race	Gender	Category
1	Albertson, Tiffany	Bishop Luers High School	Caucasian	Female	Education
2	Alexander, John	Elks	Caucasian	Male	Civic

NOTE: There are high school students involved with NAND, BACCHUS college students, and Group Leaders and families participating in Strengthening Families for an estimated total of 525 others that are currently partnering with DAC but they are not included in this membership roster.

## Problem Identification

**A. Problem Statement #1: The use and abuse of alcohol, marijuana and prescription drugs by youth continues to be a problem.**

**B. Supportive Data:**

1. According to the Indiana Prevention Resource Center (IPRC) 2013 Alcohol, Tobacco, and Other Drug Use by Indiana Children and Adolescents Survey, the percentage of surveyed youth in 6<sup>th</sup> to 12<sup>th</sup> grades in Allen County who used any amount of alcohol in the last 30 days is 17.1% (please see Past Thirty Day Alcohol Usage chart below).

**PAST THIRTY DAY ALCOHOL USAGE 2013 Survey Results**

FREQUENCY	6 <sup>TH</sup>	7 <sup>TH</sup>	8 <sup>TH</sup>	9 <sup>TH</sup>	10 <sup>TH</sup>	11 <sup>TH</sup>	12 <sup>TH</sup>
No Answer	0.9	0.5	1.4	0.6	0.6	0.5	0.8

8. The Indiana State Excise Police reported the following juvenile statistics for 2013: There were 4 citations issued to permit locations for “minor in tavern” and 30 citations for sales of alcohol to a minor. There were 6 arrest tickets issued for the charge of Possession of False Identification, 11 minors arrested for minor in tavern/liquor store, and 102 minor's arrest tickets issued for Possession/ Consumption/ Transporting of Alcoholic Beverages by a Minor.
9. According to Allen County law enforcement records, there were a total of 343 juvenile alcohol charges in Allen County in 2013.

10. The juvenile population is an underserved sector in Allen County. Our current data shows that 5 agencies reported serving 343 juveniles aged 17 or under and 15 member agencies report serving 696 minors aged 18 – 20.
11. According to the reporting schools in Allen County – Fort Wayne Community Schools (FWCS), Southwest Allen County Schools (SACS), Northwest Allen County Schools (NACS), and East Allen County Schools (EACS) – there were a total of 3,821 suspensions and expulsions at the high school level (9th – 12th grades) for the 2012 – 2013 school year. Of that number, 282 suspensions and expulsions, or 7.4%, involved alcohol and/or other drugs.
12. According to the reporting schools in Allen County – FWCS, SACS, NACS, and EACS – there were a total of 3,508 suspensions and expulsions at the middle school level (6th – 8th grades) for the 2012 – 2013 school year. Of that number, 132 suspensions and expulsions, or 3.8%, involved alcohol and/or other drugs.
13. In 2013, the Indiana State Excise Police conducted a “Survey for Alcohol Compliance” in establishments where it is lawful for youth to patronize, such as grocery stores, convenience stores and restaurants. The statewide rate of non-compliance was 5.5%. Allen County’s non-compliance rate was 1.8% with 1,752 compliance checks conducted in 2013.
14. According to Allen County judicial system records, there were a total of 298 juvenile narcotics charges in Allen County in 2013.

15. According to the Indiana Prevention Resource Center (IPRC) 2013 Alcohol, Tobacco, and Other Drug Use by Indiana Children and Adolescents Survey, the percentage of surveyed youth in 6<sup>th</sup> to 12<sup>th</sup> grades in Allen County who used any amount of marijuana in the last 30 days is 8.5% (please see Past Thirty Day Marijuana Usage chart below).

**C. Goals:**

1. Decrease total percentage of past 30 day alcohol use in 6<sup>th</sup> to 12<sup>th</sup> grade students by 3% by 2017.
2. Maintain the perceived parental disapproval of alcohol use in 6<sup>th</sup> to 12<sup>th</sup> grade students at above 95% through 2017 (in 2013 that average combined percentage was 95.8%).
3. Decrease the retail alcohol non-compliance rate of establishments in Allen County as measured by the Indiana State Excise Police by 1% by 2017.
4. Increase the average age of onset of marijuana use by 6<sup>th</sup> – 12<sup>th</sup> grade students in Allen County by 0.5 by 2017.
5. Reduce the percentage of past 30 day marijuana usage by 6<sup>th</sup> to 12<sup>th</sup> grade students in Allen County by 2% by 2017.
6. Reduce the average percentage of 6<sup>th</sup> - 12<sup>th</sup> grade students who illegally used surveyed prescription drugs in the last 30 days by 0.25% by 2017.

**D. Objectives:**

1. Promote and support organizations that use evidence-based prevention programs for children/youth, especially high risk children/youth and children of substance abusers, to prevent or reduce underage alcohol or drug use or exposure.
2. Support organizations and programs that incorporate collaboration.
3. Provide information and build skills in parents and youth through training and other education in decreasing risk factors and increasing protective factors regarding ATOD use and promote environmental initiatives that decrease underage drinking and drug use: Reduction of access to prescription drugs, marijuana and alcohol (especially “training” drinks); Increased restrictions on youth-focused alcohol advertising; Educating the general public to secure prescription drugs and alcohol to reduce youth access.
4. Support efforts to increase social event monitoring and enforcement.
5. Support law enforcement with training and equipment to address alcohol and/or drug-related criminal activity.
6. Utilize media advocacy to increase community education and concern about the scope of youth drug and alcohol use and potential damage, and promote and support nationally-recognized awareness campaigns such as Red Ribbon Week.
7. Educate legislators and facilitate additional community involvement in legislative issues regarding drug abuse and underage drinking issues.
8. Support school-based alcohol and drug identification, prevention and intervention.
9. Support the development of a continuum of care for youth and their families through treatment centers, recovery homes, and local organizations that aid in reducing barriers to access treatment, especially early intervention.
10. Support the development of youth advocates and peer educators.
11. Build the coalition using the SPF model by strengthening participation, dialogue and activities with shared tasks across the community.

**A. Problem Statement #2: The use and abuse of alcohol, marijuana and prescription drugs by adults continues to be a problem.**

**B. Supportive Data:**

1. The number of individuals arrested for OWI in 2013 was 2,551.

2. In 2013, there were 15,703 crashes in Allen County in which 366 (2.3%) were alcohol-related. There were 32 fatalities associated with these crashes out of which 4 (12.5%) were alcohol or drug-related.

Crash Data	2010	2011	2012	2013
Number of Crashes	11140	11887	11439	15703
Alcohol Related Crashes	598	467	390	366
Number of Fatalities	20	25	33	32
ATOD Related Fatalities	1	8	8	4

3. The Recovery Center of AADP reports that of their 1,071 total clients treated in 2013, alcohol is the primary drug of abuse for approximately 92% (985) of their clients.
4. Allen County Criminal Division Services reported the following information regarding their Alcohol Countermeasures Program clients for 2013: 711 (49.1%) of their clients were at or below 125% poverty level, 298 (20.6%) were at or below 150% poverty level and 440 (30.3%) were at 200%+ poverty level.

5. According to the Center for Health Policy at Richard M. Fairbanks School of Public Health at Indiana University – Purdue University Indianapolis (IUPUI), in Allen County in 2013, there were 1,856 total treatment episodes. 837 (45.1%) of the cases involved alcohol dependence. 74.2% of the treatment episodes involved abuse of more than one substance. Please see chart below.

6. According to Fort Wayne Police Department (FWPD) Vice & Narcotics, New Haven Police Department (NHPD), Allen County Sheriff's Department (ACSD), Indiana State Police (ISP) and the Indiana University Purdue University Police Department at Fort Wayne (IPFWPD) the total number of adult narcotics-related arrests for 2013 was 1,738.
7. Of the 961 drug violations reported by the Fort Wayne Police Department in 2013, 213 were for the sale or manufacture of illegal drugs and 748 were for possession of illegal drugs.

#### Fort Wayne Police Department – 2013 Drug Violations for Sale/Manufacture

#### Fort Wayne Police Department – 2013 Drug Violations for Possession

8. The number of meth labs in Allen County increased by 200% from 32 in 2012 to 64 in 2013 which placed Allen County as 4<sup>th</sup> highest in the state.

#### Annual Clandestine Laboratory Responses for Allen County since 2004

<u>Year</u>	<u>Total</u>
2004	4
2005	6
2006	2
2007	2
2008	13
2009	12
2010	22
2011	37
2012	32
2013	64

9. Drug Task Forces in Allen County seized a total of 36,777\* grams of illegal substances in 2013. Of those amounts, marijuana accounted for 86.1% of the drugs seized with cocaine making up approximately 75.2% of the remainder.

\*This amount includes totals from all Allen County law enforcement. Some did not have a breakdown by specific drug and so those numbers are not included in the below table.

#### Total Amount of Illegal Drugs Seized by Allen County Law Enforcement

<b>Type &amp; Year</b>	<b>Cocaine - Crack</b>	<b>Cocaine - Powder</b>	<b>Marijuana</b>	<b>Heroin</b>	<b>Meth</b>	<b>Ecstasy</b>	<b>Acid/Psilocybin Mushrooms</b>
<b>2010</b>	831.7 grams	3661.5 grams	178164.4 grams	97.4 grams	234.7 grams	681 pills	218.8 grams
<b>2011</b>	1005.3 grams	7719.0 grams	156407.3 grams	1014.1 grams	316.0 grams	303 pills	2837 grams
<b>2012</b>	994.65 grams	2339.6 grams	531053.9 grams	325 grams	107.8 grams	346 pills	338.6 grams
<b>2013</b>	2173.6 grams	1674.4 grams	31659.0 grams	265.5 grams	655.3 grams	108 pills	68.3 grams

10. Allen County Criminal Division Services reported the following information regarding their Drug Court clients for 2013: 79 (76.7%) of their clients were at or below 125% poverty level, 6 (5.8%) were at or below 150% poverty level and 18 (17.5%) were at 200%+ poverty level.
11. According to the Center for Health Policy at Richard M. Fairbanks School of Public Health at Indiana University – Purdue University Indianapolis (IUPUI), in Allen County in 2013, there were 1,856 total treatment episodes. 530 (28.6%) of the cases involved marijuana dependence, 165 (8.9%) involved cocaine dependence, 101 (5.4%) involved heroin dependence, and 38 (2.0%) involved methamphetamine dependence. 74.2% of the treatment episodes involved abuse of more than one substance.

12. Drug Task Forces in Allen County seized a total of 4,499\* pills of prescription medication being used illegally in 2013.

\*Some law enforcement totals reported did not have breakdowns of specific drugs, so we have updated the table below as best as could be done with the data we have.

Type & Year	Oxycontin	Vicodin	Methadone	Other Rx	Total Pills
<b>2010*</b>	436.5 pills	3396.8 pills	2672 pills	247 pills	6,752.3
<b>2011*</b>	450 pills	848 pills	426 pills	2,123 pills	4,461
<b>2012*</b>	0 pills	0 pills	136 pills	20,909 pills	28,599
<b>2013*</b>	0 pills	2,738.7 pills	98 pills	1,662.4 pills	4,499.2

13. According to the Center for Health Policy at Richard M. Fairbanks School of Public Health at Indiana University – Purdue University Indianapolis (IUPUI), in Allen

County in 2013, there were 1,856 total treatment episodes. 129 (7.0%) of the cases involved prescription drug dependence. 74.2% of the treatment episodes involved abuse of more than one substance.

14. DAC partnered with TRIAD, Walgreens and AARP again in 2013 to promote the permanent drop boxes at each of our law enforcement agencies and the two unwanted prescription drug take back days. Allen County Law Enforcement collected and destroyed 5,480 pounds of unwanted prescriptions drugs in 2013. For 2010 – 2013, an average of 4,645 pounds per year was collected. Allen County began drug take back days in 2003 and partnered with Walgreens in 2004.

### Unwanted Prescriptions Collected During "Take Back" Days in Allen County

15. DAC Intervention Committee members report serving 6,230 unduplicated clients in 2013. Of these clients, 3,839 were male and 2,391 were female. 5,191 clients were age 21 or over.
